

Co-op Academy North Manchester has been a Foundation partner school since September 2015.

The Foundation delivers tailored mentoring interventions with the aim of helping individuals and select groups to realise their potential both socially and academically. The partnership also allows Pupils the opportunity to spend productive time away from the classroom to discuss any issues they may be experiencing.

Year 9 - Manchester United Foundation Enterprise Day

Pupils get involved in careers development workshops with companies such as the RAF and NHS, as well apprenticeship providers for electrics and plumbing.
