

Tomorrow's Engineers Week provides a unique opportunity for engineers, employers, universities and schools to showcase how engineers working in all sectors are on a mission to make the world a better place.

We need more engineers. For that we need more young people to understand how what they learn at school is used in the real world. Giving young people the chance to talk directly to engineers and engage in hands-on activities that showcase and contextualise engineering is at the heart of the Tomorrow's Engineers approach.

Year 10 - Tomorrow's Engineers week

Over 50,00 students tune in to the Big Assembly every November to learn about STEM Labour Market Information.
